

First Look at Angular 2

The big picture of Angular 2. How you can write apps with it and how your Angular 1 skills translate to it

TypeScript

We can use ES5, ES2016, or TypeScript to write Angular 2. We will write all code samples with TypeScript.

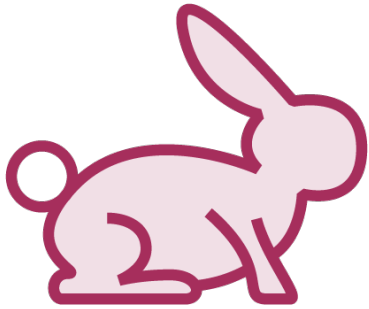

JavaScript Basics

Why Angular 2?

Angular 2

Fast

Powerful

Clean

Easy

iOS

 Internet
Explorer

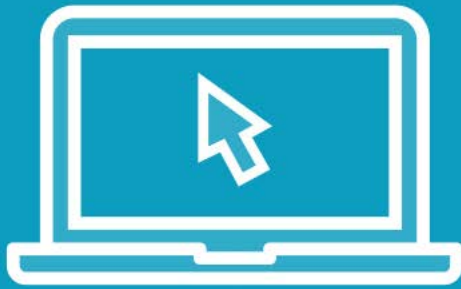

9, 10, 11 and Edge

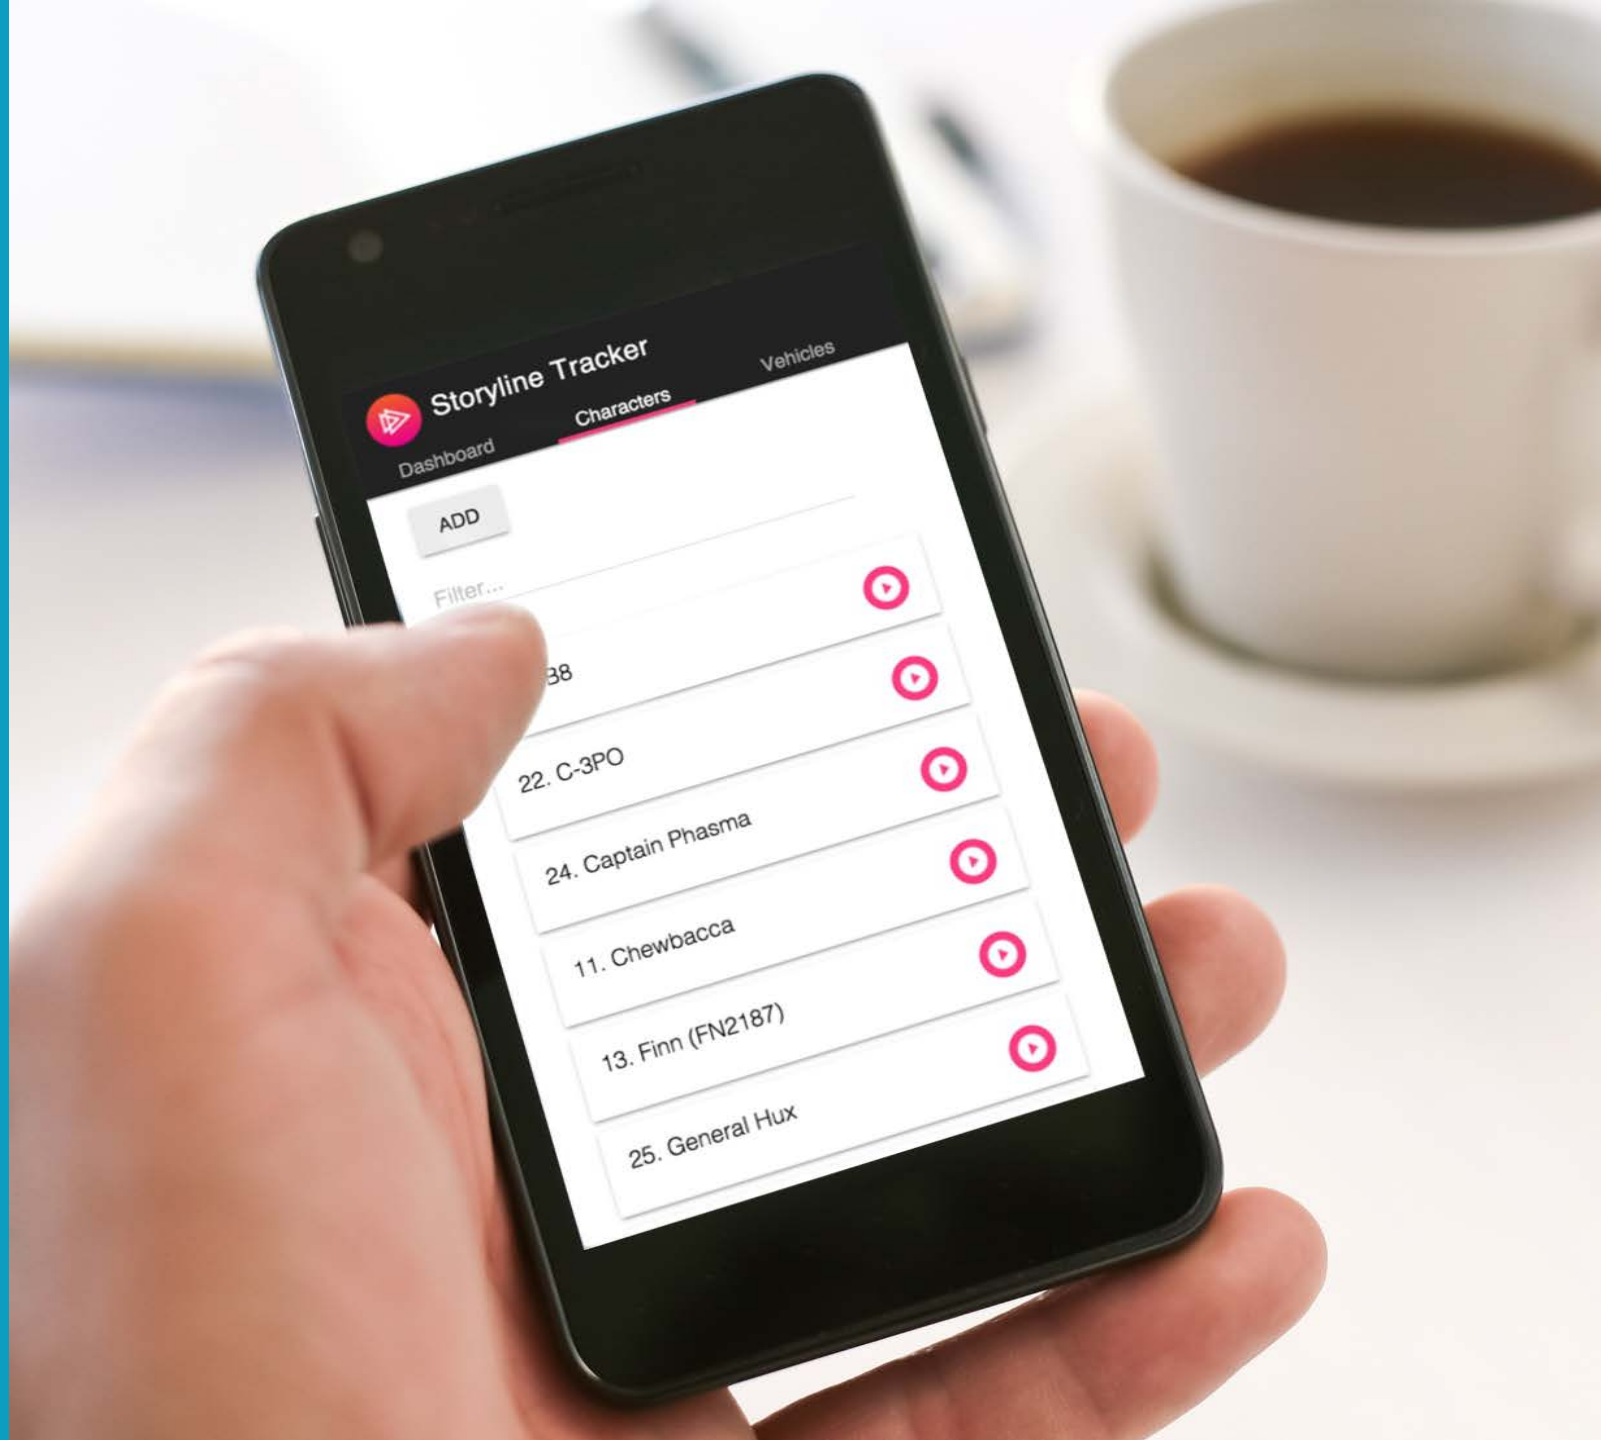

4.1+
